

Skype for Business- iPhone

1) Access the App Store and search for Skype for Business

2) Once the app installs, you will be walked through the set up process

Lync is now Skype for Business - bringing together the experience of Skype with the enterprise quality of Microsoft.

Anyone can use this app to join a Skype Meeting, but to enjoy all the features, you need a Skype for Business account and your organization must have enabled this app.

OK

3) You will be asked to enter your WSU email address and password
