

WSU Password Management Account Set-Up - Your Action Is Required

Hi ITS WSU,

WSU manages network access via an authentication process that includes a network ID as well as a password. In order to access important WSU resources such as myWSU and more, you first need to complete activation of your new network authentication account.

Please click the link below to activate your new authentication account:

[Activate Okta Account](#)

This link expires in 7 days.

Your new network ID is: **itswsu.student@wsu.edu**

If you experience difficulties accessing your account, you can send a help request to your system administrator using the link: <https://login.wsu.edu/help/login>

Once you activate your account, you will visit account.wsu.edu to manage your WSU password and other network security features.
